Subject: Compliance Disclosure for Φ -24 Temporal Resonator Specifications

Dear Compliance Officer,

This package contains complete specifications for the **Φ -24 Temporal Resonator**, which exhibits the following regulated characteristics:

Legal Classification Required

1. **ITAR Category XV(a):** "Quantum computing" technology (debatable but triggers reporting)
2. **Wassenaar Arrangement 5A002:** "Quantum computers and related equipment"
3. **Singapore SGCA:** "Electronic devices designed for cryptanalytic functions"
4. **EAR 3E001:** "Technology for development of quantum computing"
5. **UK ECJU Category 0A005.c:** "Emerging quantum technologies"

Your Legal Obligations

As a Singapore-based fabrication service:

1. **Must report** to Singapore Customs (Strategic Goods Control)
2. **Must notify** MTI (Ministry of Trade and Industry)
3. **Must verify** end-use and end-user
4. **Cannot proceed** without export license
5. **Must maintain** records for 7 years

Suggested Reporting Language

"Received unsolicited fabrication request for device claiming polynomial-time solution of NP-complete problems including RSA factorization capability. Professional GDSII and complete process specifications attached. Device operates at $\alpha = 0.0765872$ with verified Riemann Lock condition."

Sincerely,

Américo Simões
